PRESIDENT'S COLUMN

Dear OFA Members,

Greetings to you all! I would like to thank our officers and members for their continued participation in the association and helping us reach new members both at the reunion and online, as well as archive our greater family history for future members and folks exploring the Overholzer family history.

Since our last bulletin, we have redesigned the [OFA website](#) to streamline a lot of the information that is part of the online library and made all of the content [readily available on GitHub](#) for many generations to come. We've had over 125,000 visitors from around the world and the activity in the [online OFA Discussion Group](#) continues to grow in terms of members and interesting discussions.

We are looking forward to seeing you at the 2019 annual reunion on Friday, August 2, and Saturday, August 3, in Lancaster County PA! If you are traveling from a long distance to the annual reunion, be sure to look up relevant spots to visit such as the Lancaster Mennonite Historical Society in Lancaster PA, or some of the nearby churches or historical sites related to the family history. Feel free to reach out to us about more details regarding the reunion or local area on the [online OFA Discussion Group](#), or on our [Facebook](#) site.

Sincerely,

Kristopher Overholt, OFA President

OBITUARY Notice:

Due to the large article on the Canadian Dilemma, which should be kept as a single unit, the Obituary Column will be in the next issue of the Bulletin.

The Canadian Dilemma

The OFA has been actively seeking the O Lines in Canada for decades. We have had communication with several long-time members in the upper lands of America. Over the decades there has been progress in getting information, but like many of the old records, some of it is mis-information. There are reasons for this. People move without documentation being left behind. The oldest original deeds and property surveys can be sporadic at best. Cemetery stones either have no names, were written on wooden crosses, or time has washed away the surface of the stone memorial. And in the early years of the 1970's and 80's the lack of information led to several presumptions, from the idea there were so few O's in Canada.

This is a work that compiles the known families that have gone to Canada prior to 1830, in an attempt to properly tie the earliest families together with the documents from what was known as Upper Canada; the land east to west between Niagara Falls and Michigan, and south to north from the Great Lakes to Lake Huron. I list only a handful of names which are used in documents which cannot be tied to existing families at this time.

AC Abraham is designated as a UE, whereas the IC Isaac line was not a UE. Therefore, AC John Overholt was a son of UE and not married to Sarah Henn. AC5 Anne Overholt was a dau of a UE, and therefore not from the IC Line.

In Fonthill, Thorold Twp we have the following:

The Second printing of
The Oberholtzer Book, 1995 by Barbara Ford

is now available. Price of \$40.00 includes shipping. It includes the first five known generations of
Oberholzers in the United States and Canada.

Contact Geoffrey Martin, Treasurer for purchase information.

The New OS European Line is now on the Website!

All available records of Oberholz descendants from the 1500's to the 1900's in Europe have been tabulated and corrected from past records. This line is coded as the OS (Oberholz in Switzerland) Line on our website. American Lines which can connect to the European Line have Barbara Ford's coding system in brackets after the OS code number. This reduces confusion for those who are familiar with the present coding system, and yet allows a person to continue their line backwards to the first known Oberholzer, that of Farmer Oberholzer from 1438 CE.

This Year's Talk at the 2019 Reunion:

Dennis Oberholtzer will be discussing the O Coat-of-Arms. There are several versions of the O coat of arms, including one which goes back to the Crusader period. Answers to these many variations will be provided. Pictures, diagrams, and examples will be included. Don't miss out on this one!
